INDUSTRIA COMPONENTI ELETTRONICI

Castellanza, 05/09/2025

ns. Rif.: WM, AF

Pag. 1/1

Object: possible usage of different qualified materials, all compliant with specifications and possible effects on aesthetic appearance

Types object of the statement-validity: **all ICEL products**

With reference to ICEL s.r.l. General Catalogue/ www.icel.it, we state that all the raw materials in use, purchased from selected and qualified suppliers, are qualified and adequate to guarantee the products conformity to the specifications, related performances and applicable normative and regulations.

Unless differently and specifically discussed and agreed, for its products ICEL uses any material which is judged appropriate, upon qualification. Provided that this allows the total respect of products reference specifications at catalogue and guaranteeing their specified performances, reliability and operational characteristics.

The adoption of different materials from different suppliers may also cause variations of the aesthetic appearance. Moreover, this may derive also from process admitted tolerances.

Examples:

- box colors (typically white, grey)
- sealing resin colors (typically green, white for productions made before 2025)
- printing label layout, sharpness and fonts conformation

Please take the above into account
